Zordan1965 start-up collaboration and design of the new collection Gemme di Bosco.

Gemme di Bosco want to express with contemporary design the evolution of Italian furniture.

As past needs created traditional forms, so we want satisfy modern needs.

These products are a continuous dialogue between characteristics of wood and the ability of Zordan1965's craftsmen to understand it.

The collection is shift in two different series of furniture which works with the wood in different ways:

The Laths serie is an expression of the artisans' ability; these pieces of furniture want to emphasize wood as valuable material and allow it to express their essence in the hands of a skilled workforce.
